Trend Micro™

WORRY-FREE™ BUSINESS SECURITY STANDARD/ADVANCED

Complete user protection designed for small business

The number of small businesses falling victim to cybercriminal data theft schemes is on the rise. These criminals are known for using a variety of techniques, such as ransomware, spam, malware, phishing, and advanced targeted attacks—custom built to bypass traditional antimalware solutions.
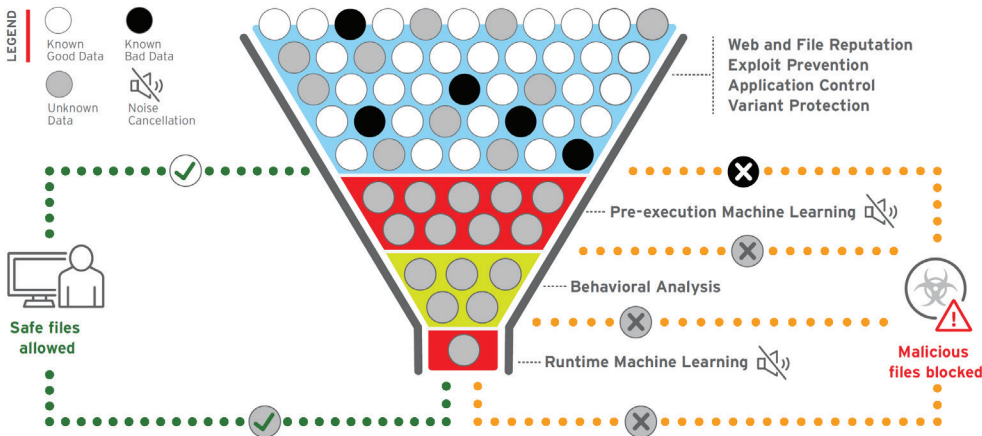

Trend Micro™ Worry-Free™ Business Security, powered by XGen™ security, provides complete user protection that includes antivirus, antispam, web security, ransomware protection, and data security for your PCs, Macs, servers, and mobile devices*.

Worry-Free Business Security is easy to use, has a small footprint, and won't slow you or your staff down. With this solution, you can be confident that your IT security is comprehensive and your business' data is safe.

Using global threat intelligence from Trend Micro™ Smart Protection Network™, Worry-Free Business Security provides immediate protection against the latest threats. Every day, Smart Protection Network analyzes more than 15 terabytes of threat data, to which it then identifies and blocks 250+ million threats in the cloud before they can reach your systems.

WHAT IS XGEN™ SECURITY?

Trend Micro Worry-Free, powered by XGen™ security is the first to infuse high-fidelity machine learning that uniquely analyzes files before execution and during runtime, for more accurate detection without false positives.

For six years in a row, Trend Micro has been the worldwide number one content security provider for small businesses.

– **Canalys, Small Business Content Security Market Trends, 2016**

Trend Micro's messaging and mail server security have ranked first in Opus One's seven consecutive antispam tests, outperforming leading security vendors.

– **Opus One, 2012-2015**
