## FERTINET

#### DATA SHEET

# **FortiConverter**<sup>™</sup>

Configuration Migration to FortiOS

FortiConverter Service helps you migrate to the latest version of FortiOS. This service is useful for migrating a pre-existing third-party firewall policy to a new FortiGate appliance, or even an older FortiGate policy to a new one.

- Reduces migration complexities
- Eliminates common migration configuration errors
- Includes change logs to documents that were migrated

FortiConverter Service supports migration of interface NAT,

firewall policy and address objects, as well as static routes for third-party vendor configuration to FortiGate configuration. All FortiGate to FortiGate configurations are fully supported.

#### **Managing Migration**

Migrating complex legacy firewall configurations to next-generation solutions presents issues and challenges. It may seem relatively simple at a high level, but any experienced security manager knows this is not the case and that proper planning is essential.

For example, a significant firewall migration challenge is NAT. When you migrate to FortiOS, legacy NAT rules often need to be merged. This is non-trivial and getting this wrong usually results in a loss of network connectivity. Fortinet's vast experience and best practices in routing and NAT is imbedded in FortiConverter Service's core engine, thus reducing the complexity and common errors when migrating NAT rules.

A one-time service add-on for new FortiGate appliances, FortiConverter Service makes the transition process more reliable and predictable, reducing human errors that occur in manual processes, along with timelines and costs. Simply upload the source configuration file to Fortinet, then receive your new, migrated FortiOS configuration file, with accompanying report for documentation and auditing, that you upload to your new FortiGate. Whether upgrading from a third-party firewall to the latest next-generation FortiGate, or trading in your well-used FortiGate for the latest model, Fortinet believes transitioning to next-generation security platforms should be as simple as possible.

### **Highlights**

- One-time service, migrating legacy configurations to the latest FortiOS
- Summary report and audit documentation
- Broad industry support
  - Cisco
  - Palo Alto Networks
  - Check Point
  - Juniper
  - Forcepoi
  - SonicWall
  - Trend Micro (Tipping Point)
  - Nokia (Alcatel-Lucent)

## **Highlights**

#### **Professional Services**

Many organizations and consulting services companies use FortiConverter Service for their migration projects, but you may choose to engage Fortinet Professional Services to provide customized consulting services for your migration. By engaging the skills and experience of Fortinet Professional Services, you avoid pitfalls that can befall migration projects.

Typical migration tasks include:

- Solution design, design guides, and best practice
- Project and migration plans
- Migration risk analyses
- Appliance commissioning
- Policy migration
- Cutover support and troubleshooting
- Test plan execution and validation
- Post-cutover incident management

To engage Fortinet Professional Services for your project, contact your Fortinet partner account manager.

### FortiConverter Migration Tool

Some organizations planning to perform multiple migrations over a year prefer to purchase a software tool, allowing them to perform and tune their own migration files. Purchased as a subscription for a one year period, the FortiConverter Migration Tool allows an organization to perform an unlimited number of migrations during the year over the entire FortiConverter library of third-party firewalls, including some fine-tuning to customize the migration file.

#### FortiConverter Service

FortiConverter Service is sold as a one-time service to convert one third-party or older FortiOS configuration to the latest FortiOS for the new FortiGate. FortiConverter Service is currently available for the following newer FortiGate hardware and virtual appliances:

FortiGate-30E FortiWiFi-30E FortiGate-30E-3G4G FortiWiFi-30E-3G4G FortiGate-50E FortiWiFi-50E FortiWiFi-50E-2R FortiGate-51E FortiWiFi-51E FortiGate-52E FortiGate-60E FortiWiFi-60E FortiGate-60E-DSL FortiWiFi-60F-DSI FortiGate-60E-POE FortiGate-61E FortiWiFi-61E FortiGate-80E FortiGate-80E-POE FortiGate-81E FortiGate-81E-POE FortiGate-90E
